

Amplify Premium Diesel

Amplify Premium Diesel is a high-performance diesel designed to meet increasing demands of new diesel engines. Its unique, advanced formulation keeps hard-working engines healthier for longer.

The unique advanced additives in Amplify Premium Diesel restore and maintain fuel injector cleanliness. Through regular use it can protect your engine and provide up to 100% power restoration*.

In addition, its powerful cleaning agent and rust inhibitor, Amplify Premium Diesel also features a specially added foam inhibitor to provide a cleaner and faster fill.

Amplify Premium Diesel contains additives that help you make the most of your diesel engine. It is suitable for most diesel engines and is a great choice if you're looking for fuel that fills up fast, removes engine deposits and inhibits rust.

Cleaning Agent

- Removes engine deposits that gradually reduce its performance if allowed to accumulate.

Rust Inhibitor

- Prevents the formation of abrasive rust particles which could damage your engine.

Foam Inhibitor

- Ensures a cleaner and faster fill by reducing the formation of stable foam.

Applications

Ampol Amplify Premium Diesel is suitable for all diesel-powered equipment including:

- High speed diesel engines – passenger cars, SUVs, buses, trucks, Utes, agricultural, military, power generation and heating equipment
- Applications where load and speed vary widely
- On-road and off-road applications
- Industrial applications
- Underground and above ground mining applications

Please note – Ampol Amplify Premium Diesel is not recommended for aircraft or aviation applications.

Ampol Amplify Premium Diesel complies with the relevant provisions of:

- Fuel Quality Standards Act 2000
- Fuel Standard (Automotive Diesel) Determination 2019
- Australian Standard AS3570 – 1998 Amendment No. 1
- Environmental Protection (Petrol) Regulations 1999 (WA)
- BS EN 590 (except for density and cetane number)
- ASTM D975 (Grade No. 2-D S15)

Environment, health and safety

Ampol Amplify Premium Diesel is Classified as a C1 (Combustible Liquid) for the purpose of storage and handling, in accordance with the requirements of AS 1940. Avoid contact with the skin and eyes. Avoid breathing vapours or mists.

Users should consult the SDS, follow the precautions outlined and comply with all laws and regulations concerning its use and disposal.
